

Hi ! Thank you for coming today ! It really means allot to me! I want to thank Katrina for hosting! You are the best ! Like I said before I will gift you a Energy Healing session whenever you would like it !!! Thank you 🙏.

Ok. Most of you know me, but just pretend for a second you don't
My name is CAROLYN KENYON

I am a PERSONAL TRAINER, an ENERGY HEALER, the form of energy healing I do is called REAP. (remote energetic alignment process).

And today we will be learning the fundamentals of REAP. How we can heal our own body .

Im also a HOLY FIRE REIKI MASTER TEACHER! So all this goodness wrapped on in one ! Yup ! I love what I do . I kinda combine everything for my clients. If a virtual PT client tunes in and I feel he/she is struggling , I can switch gears and move a bit of energy around for them. Sometimes we just keep it a healing session, or they start to feel a bit more

themselves and then I get to beat them up with a workout 🏋️ ! It's cool!

So, a little bit about my story and then we need to DIVE into our workshop!!

Ok, my husband and I moved up in 2010 from PA . We had 2 weeks to decide if we wanted a change in our life and follow his work to Harvard University. We said YES. He left and I followed 6 months later and then our son Aaron followed 6 months after that ...and then 2 1/2 years later we sold our house in PAit was a looonnnnggg hard time. But we both say it was the beginning of our journey to healing. It really was ..

I met my first mentor Pam Dussault in 2012 ? She was doing more mediumship sessions then. It's exactly where I needed to start . I carried so much pain from the loss of my dad , then my sister and the list goes on . I kinda never really felt whole since my dad passed when I was 16 going on 17 . Having a mediumship sessions with Pam started my healing, then Williams healing . I then became more interested in energy healing. She's the founder of REAP. Back in 2008 it was founded by her. I loved when I had REAP sessions with her. I was letting go of emotions, attachments that no longer served me . It felt so good inside to be able to breath . I needed to begin my learning of REAP. I got certified in level 1 and 2 , in 2016 -2017. Last year during COVID I began my apprenticeship in the TEACHER CERTIFICATION. And here I am today . Teaching my first class in person !

I'll share bits and pieces of my journey as we learn the Body Activations together.

My husband and I in 2019 did a few Energy Healing Events at the Bull Run . I shared parts of my healing journey and he played and sang his beautiful original songs. I met Katrina there! I think she went to all of them

♥. So SHARING is CARINGand CARING is SHARING!

I want to share right now what helped me release what was holding me back most of my WHOLE life .
